

EDUCATION

Mohali, Punjab, India	Bachelor of Engineering in Computer Science Engineering Chandigarh University Intermediate (+2) Ryan International School	August 2020 – May 2024
Ludhiana, Punjab, India		May 2019 – March 2020

TECHNICAL SKILLS

- **Programming & Databases:** Python, SQL, MySQL
 - **Data Science & AI:** Pandas, NLP, Machine Learning, LLMs (ChatGPT, Gemini, DeepSeek, Mistral, HuggingFace), LangChain, Prompt Engineering
- **Automation & Web Scraping:** Selenium, BeautifulSoup, Requests
 - **Tools & Technologies:** Excel, SQL Workbench, PyCharm, Streamlit, SQL developer

EXPERIENCE

- Data Analyst | Tata Consultancy Services (TCS)**
April 2025 – Present

 - Working on **Data360 Analyze** to support enterprise-wide data integration, transformation, and automation, processing large-scale business datasets.
 - Developed and optimized data pipelines using **Python and SQL**, leveraging **ODW with SSIS integration**, improving data processing efficiency by **~30%** and ensuring high data quality standards.
 - Enhanced automation and reporting workflows, reducing manual effort by **25%+** and improving reporting turnaround time.
- Data Scientist Intern | WyzMindz Solutions Pvt. Ltd**
May 2024 – Apr 2025

 - Individually developed a **Python API using FastAPI** for customer experience analysis, **integrating LLMs, and SQL Workbench database** for seamless backend operations.
 - Leveraged **LangChain and NLP** to automate conversational insights, improving audit accuracy by 40%.
 - Automated 3 client websites, reducing manual effort by 60% and delivering projects ahead of schedule.
 - Integrated **Vennify LLM** for grammar correction, enhancing detection accuracy by 30%.
 - Designed and deployed end-to-end **NLP pipelines and automation systems** combining Google Drive, Streamlit, and FTP, reducing workflow time by 50%.

ACHIEVEMENTS

- 🏆 **First Place – SuryoJasvi AI Festival 2025**
Awarded ₹50,000 cash prize for project: “Automated Insight with Assured Brand Integrity”
Designed and deployed an AI-driven automation API leveraging **LangChain + Gemini (LLM)** for contextual analysis, **Hugging Face NLP, rule-based Python logic, Pandas, FastAPI, MS SQL, and n8n**. Enabled dynamic business data processing, insight generation, and automated workflow orchestration (24×7). Collaborated with a 4-member team to deliver an end-to-end enterprise-grade solution integrating LLMs, automation, and smart logic.

PROJECTS

- CareerGenie.ai – AI Resume & Career Assistant | [GitHub](#)**

 - Built an **AI-powered resume analyzer** leveraging **LangChain, LLMs, BeautifulSoup, and NLP** to generate personalized job recommendations and career insights.
 - Processed **10+ resumes** to identify skill gaps, suggest improvements, and match users with suitable roles.
 - Enhanced job search efficiency by **40%** and improved resume quality for better professional positioning.
- EinsteinAI – Physics Learning Assistant | [GitHub](#)**

 - Created an **AI-driven physics assistant** using **Google’s Gemini 1.5 Flash** model to deliver precise, subject-focused educational support.
 - Built with **Streamlit** for an interactive UI, integrated secure API management, and implemented **context-aware query filtering** to ensure relevance.
 - Improved query accuracy by **95%**, boosted response efficiency by **40%**, and reduced irrelevant responses by **60%**, making physics learning faster and more engaging.
